SAVE

Active – This status will make your tag active allowing your Emergency Contact record to be displayed when someone scans your QR code or enters your tag code on the website.

If your tag shows this status, it is already active and available for use. Change your tag to this status to make it active if it is not active now.

Purchased-Inactive - This status indicates that your tag has been pre-registered and allocated to you, but the full registration process has not been completed.

Disabled – This status will disable your tag and prevent the Emergency Contact Record from displaying. Choose this status only if you want to permanently disable your tag. You might want to do this if your tag is lost or stolen.

Inactive - If your tag shows this status there is a problem with your account. Please contact Etagz support at support@etagz.net
